

# Instructor-Led Online Training

**WIN** the technology race with ILO training.

Teradyne now offers Instructor-Led Online (ILO) training courses. ILO training courses are designed specifically for online delivery.

Each ILO course focuses on one facet of semiconductor test with a maximum runtime of three hours. The courses are scheduled and will be taught on a set day and time.

All of our instructors are both experienced trainers and subject-matter experts.

## BENEFITS

- **High Quality** - Same high quality content and instructors as our classroom course but designed for online delivery
- **No Travel** - Training without traveling; shorter time, lower cost
- **Flexible** - Modest connectivity requirements mean you can participate from almost anywhere.
- **Interactive** - Live interaction with instructors and peers; exercises reinforce concepts learned
- **Cost Effective** - Registration fee is based on a per-connection basis; any number of attendees can participate from one connection.
- **Access to Subject-Matter Experts** - Connect to Teradyne SMEs for answers to your technical questions.

## WHAT DO I NEED TO PARTICIPATE?

- **Computer** - ILO training lets you participate from your computer.
- **Broadband Internet Connection** - You connect to a virtual classroom where you will interact directly with the instructor and your peers.
- **Register** - All you need to do is register for the ILO training course of your choice.
