## NEWS AND ANNOUNCEMENTS

### **IPC Selects Teradyne's TestStation™ with SafeTest™ for 2004 Innovative Technology Showcase**

The IPC ("Association Connecting Electronics Industries") chose Teradyne's TestStation ICT with SafeTest Protection Technologies for inclusion in this year's Innovative Technology Showcase (ITS). The ITS 2004 was held at the co-located IPC SMEMA Council's APEX, IPC Printed Circuits Expo and IPC Designers Council Summit exhibition and conference in Anaheim, Calif. on February 24-26. ITS showcases new and emerging technologies from all segments of the electronics interconnection supply chain, including assembly, printed circuit board fabrication and design.

### **Teradyne Receives Partner Award from Georgia Institute of Technology**

The Teradyne Assembly Test Division received an award for being a valued partner of the Center for Board Assembly Research (CBAR), Georgia Institute of Technology. An honorary plaque was presented at the IPC's APEX event to thank Teradyne for its continued support of CBAR. CBAR's mission is to address the industry's need for advanced research on board assembly processes and systems.

### **ICT Trade-in Program Extended to March 31, 2004!**

Due to popular demand, Teradyne has extended its special ICT trade-in program. There has never been a better time to replace your older, less capable in-circuit test equipment. Teradyne is offering incredible savings on the latest TestStation LH and TestStation 12X tester models equipped with Teradyne's powerful SafeTest Protection Technologies. You need to act now, however, as the promotion ends March 31. For details, see:

### **Landrex Technologies Acquires Teradyne's Optima AOI Product Line**

Landrex Technologies Co., Ltd., Asia's largest manufacturer and supplier of printed circuit board(PCB) test fixture solutions, announced today that it has signed an agreement to acquire Teradyne's Optima™ Automated Optical Inspection (AOI) product line, which it plans to market globally. Included in the acquisition are patent rights and other intellectual property. Landrex will continue as a Teradyne Authorized Representative (TAR) in South China and Taiwan for In-Circuit Test (ICT) products.

## UPCOMING EVENTS

### **TERADYNE WEBINAR SERIES "Are You Ready for 2004?", Wednesday, March 31**

Join us for the next Web-based seminar designed to prepare you for the test and inspection challenges of 2004. Our third 2004 Webinar will explore how new low-voltage devices affect today's and tomorrow's PCB test and inspection strategies. "The Impact of Low-Voltage Devices on Test and Inspection" features Michael J. Smith, Teradyne technologist and industry expert, as the presenter. To register for the March 31 Webinar, go to:

### **Dixie Crow Symposium XXIX, Warner Robins AFB, March 21-25**

Teradyne will once again participate in the Dixie Crow Symposium, the premier annual event for electronic warfare. This year's convention will be held at the Museum of Aviation at Warner Robins Air Force Base in Georgia with the theme "EW is Changing...Are You?" The event is sponsored by the Electronic Warfare Management Directorate, Warner Robins Air Logistics Center, and The Dixie Crow Chapter of the Association of Old Crows. For more information, click here:

### **AEROSPACE TESTING EXPO, Hamburg, Germany, March 30-April 1**

Teradyne will present a paper on the NxGen™ Automatic Test System (ATS), Boeing's next-generation test solution for commercial avionics. Boeing selected Teradyne to manufacture and support the NxGen ATS. Sponsored by *Aerospace Testing International* magazine, Aerospace Testing Expo 2004 is an important new opportunity for the aerospace industry test and evaluation teams world-wide to get together and view the full range of available technologies and test service partners under one giant roof.

### **AVIONICS MAINTENANCE CONFERENCE, Montreal, April 26-29**

The Avionics Maintenance Conference (AMC) is an air transport industry activity sponsored by ARINC. Attended by maintenance experts from around the world, the annual conference identifies technical solutions to maintenance issues. Teradyne will participate as an exhibitor in this 55<sup>th</sup> annual event, hosted this year by Air Canada. For more information:

<http://www.teradyne.com/prods/cbt/news/tradeshows/amc2004.html>

### **NEPCON China, Shanghai, April 26-29**

Teradyne will exhibit at the largest electronics manufacturing event in China: NEPCON Shanghai/EMT China. Held at the Everbright Convention & Exhibition Center in Shanghai, this major four-day event attracts electronics manufacturers from all over China. This year Teradyne plans to exhibit its TestStation in-circuit test systems and SafeTest protection technologies, as well as D2B (Design-to-Build) software for test-strategy optimization. For more information about NEPCON China, click here:

### **TERADYNE USER GROUP (TUG) Conference, San Jose, CA, May 3-4**

It's time to register for TUG 2004! The TUG Steering Committee has completed the technical program. Details for Assembly Test: Mil/Aero sessions are posted on the Teradyne Web site. "Do More in '04" is this year's conference theme. Join Teradyne engineers and your colleagues at the Doubletree Hotel in downtown San Jose. Don't miss the Teradyne-sponsored customer hospitality event on Monday night, May 3. It's always a fun and exciting evening. To learn more or register for the event, visit the TUG web site:
