

Dear **Z18XX** customers,

Models: **1800, 1803, 1805, 1808, 1811, 1812, 1820, 1840, 1850, 1860, 1866, 1880, 1884, 1888, 1890**
Product Status: **Discontinued**
Support Status: **Partial Support**

This letter is to notify you about the recent support status update for the discontinued Z18XX models that have transitioned from Full Support to the **Partial Support** status category. This means that Teradyne plans to make no further software or hardware enhancements for the discontinued Z18XX system models. Future software support will be limited to critical bug fixes of the G1 software on the Microsoft Windows 98 operating system.

Service and support contracts are still available for purchase to support these discontinued system models in the partial support category. Teradyne's global services and support organizations will use "reasonable commercial effort" in an attempt to satisfy customer support requests for hardware, application, and maintenance services.

Teradyne would like to remind customers that the "Z1800 Replacement Program" is available to facilitate our loyal and valued Z18XX customers to smoothly upgrade to the [TestStation LH](#) test system. The upgrade option provides a hardware adapter and software tools that allow you to move Z1800 programs and fixtures to Teradyne's latest ICT platform.

If you have any questions regarding this information or upgrade options, please contact Teradyne cs1@teradyne.com or 1-800-TERADYNE.

Sincerely,

Commercial Board Test Product Manager
1-800-TERADYNE cs1@teradyne.com
