

UPDATE, June 2006

Welcome to the Teradyne ATD eKnowledge Monthly News Letter. This Email is intended to keep all ATD eKnowledge users up to date with the latest information that has been posted to the ATD eKnowledge Web portal.

WHAT'S NEW:

A new software patch called ***Spectrum 88xx 5.0 patch6 (May 23,06)*** has been posted for the **Spectrum 8800 Series** product. This patch can be located in the **Documentation Library** in the **Spectrum 8800** folder and **Software Downloads** and in the **Software Download** section.

A new manual called ***TestStation SE Fixturing Guide*** has been posted for the **Spectrum 8800 Series** product. This manual describes the interface between the test system and the printed circuit board to be tested and provides information about fixture safety and installation. This manual is for the TestStation SE system and can be found in the **Documentation Library** in the **Spectrum 8800** folder in **Manuals**.

Three new software patches called ***Navigate 590 patch 11 (June 1, 06)***, ***Navigate 600 patch 1 (June 1, 06)*** and ***Navigate 580 patch 26 (June 02, 2006)*** have been posted for the **TestStation Series** product. These patches can be located in the **Documentation Library** in the **TestStation** folder and **Software Downloads** and in the **Software Download** section.

A new version of the Teradyne Fusion License Manager called ***New Teradyne License Manager Version 2.4.1.1*** along with its information file have been posted for the **D2B Series** product. This release corrects the issues with Microsoft .NET 2.0 and can be found in the **Documentation Library** in the **D2B** folder in **Software Downloads** and in the **Software Download** section.

The ***Teradyne Mil/Aero System Performance Reports*** from 1/1/05 through 5/30/06 have been posted. These can be located in the **Documentation Library** in the **All Products** folder and **SPR Performance Data** and in the **Centers of Excellence** section in **Military Programs**.
